You can edit and save your drum kits for custom sounds. BFD is a registered trademark of FXPansion Audio UK Ltd. Reason is a trademark of Propellerhead Software AB. It still comes with an Alesis Bass bass drum pedal and a kick for your personal feel. This five-piece kit makes you start a double zone trap for two-center compatibility. iPod is a trademark of Apple Inc., registered in the US and other countries. The Reason is a trademark of Propellerhead Software AB. Robust Hardware A drumnet is as strong as the weakest link. To reduce vibration feedback, we select the natural rubber drum and the plate surfaces for the DM6 USB kit pads. Practice Tools The DM6 module has a metronome, an essential tool to keep time stable, whether you're practicing alone or with a band. The DM6 features earphone and amp outputs so you can play silently on phones or connect to and shake. You get cable connections for three tone, chimal, accident, ride, kick, chi-chap pedal and a double zone trap. Excellent sound The DM6 module features an internal collection of drum, plate and high-level percussion sounds that will surprise you. In addition to the built-in sound library, the DM6 also features a USB output jack. The DM6 USB kit mounts in a heavy aluminum rack. The standard 1 1/2" pipe allows you to add with Alesis clamps and supports and other brands. The DM6 features a multi-pin connector to easily connect the included cable snake. Imagine an unlimited collection of sounds! Stereo headphones and amp outputs so you can quietly play on phones or connect and shake. The dm6 drum module is a compact "brain" electronic drum to trigger with virtually any set of electronic blocks, triggers or otherelectronic percussion equipment. The kit also comes with a complete set of mounting hardware and cables as well as robust kick drum and hi-hat pedals. Toontrack is a trademark of Toontrack, Toontrack is a trademark of Toontrack. In addition to the sounds in the DM6 module, there is a USB output that sends the notes you play out as MIDI signal, so you can use the DM6 as a trigger-to-MIDI interface with drum-module software such as BFD, Toontrack, or Reason for an unlimited collection of sounds. No DISPONISH ALESS Like all Alesis drum sets, the DM6 USB Kit features realistic and natural playing surfaces. The DM6 also has a built-in sequencer with 40 preset music tracks to play along. Its pads feel great and its hardware and rack system are of high quality. This electronic drum set features a completely new sound module with 108 quality drum, cymbal and percussion sounds. You can also connect your iPod or CD player and mix it with the DM6 stereo input connector. iPod is a trademark of Apple Inc., registered in the US and other countries. ALL OF PRACTICE The DM6 module has a metronome, an essential tool to keep time stable, whether you practice alone or with a band. You can dial in a snare drum sound in the center and a click of edge, rimshot, or something totally different like a cowbell on the edge! The DM6 USB Kit also comes with three tone pads, a kick drum pad, hi-hat, accident, and walking pads. You have 10 presets and 5 custom slots. By connecting the DM6 to your Mac or PC, you can send the notes you play out as MIDI signal, turning the DM6 into a trigger-to-MIDI interface for use with drum-module software such as BFD, Toontrack, or Reason. Enjoy great quality instruments and a complete range of practical features andwith the dm6. You do not need to worry about combining different cables with sockets.
